

FORM CRS
A SUMMARY OF YOUR ADVISORY RELATIONSHIP WITH BUCK WEALTH STRATEGIES, LLC
JUNE 13, 2022

ITEM 1 – INTRODUCTION

Buck Wealth Strategies, LLC is registered with the Securities and Exchange Commission (SEC) as an investment adviser. Brokerage and investment advisory services and fees differ, and it is essential for you to understand these differences. Free and simple tools are available to research firms and our Financial Professionals at Investor.gov/CRS, which also provides educational materials about broker-dealers, investment advisers, and investing.

ITEM 2 - RELATIONSHIPS AND SERVICES

WHAT INVESTMENT SERVICES AND ADVICE CAN YOU PROVIDE ME?

Buck Wealth Strategies offers investment advisory services to retail investors. Our firm manages advisory accounts on a discretionary basis. In a discretionary account, you have granted written investment authority to your Financial Professional to execute purchase and sell orders in your advisory accounts without consulting with you first. You may limit our discretion, such as by imposing reasonable restrictions on investing in certain securities or groups of securities.

Our firm monitors your agreed upon asset allocation target and investments (that you have granted us discretion over) within your advisory account(s), on an ongoing basis to align with your investment goals. This service is included as part of the Firm's standard advisory services. Our Firm requires a minimum portfolio value of \$25,000 in order to provide advisory services to you. This minimum portfolio value requirement is negotiable. Our Firm offers financial planning and consulting services for our clients. Financial Planning services can be provided on a stand-alone basis or in conjunction with our investment management services.

QUESTIONS TO ASK YOUR FINANCIAL PROFESSIONAL:

- Given my financial situation, should I choose an investment advisory service? Why or why not?
- How will you choose investments to recommend to me?
- What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications mean?

ITEM 3 - FEES, COSTS, CONFLICTS, AND STANDARD OF CONDUCT

WHAT FEES WILL I PAY?

Our firm charges an annual investment advisory fee based on a percentage of assets under our management. The investment management fee includes investment management supervision, trade entry, and other account maintenance and/or service activities. Our investment management fees are based on a percentage of the total account value. Our maximum annual investment advisory fee is 1.5%, billed monthly in arrears and calculated based on the average daily balance of the account(s) under management. You pay this fee even if you don't buy or sell investments. The more assets in your advisory account(s), the more you will pay in fees, and therefore, our firm has an incentive to encourage you to increase the assets in your account(s). Your custodian will charge transaction costs, custodial fees, redemption fees, retirement plan and administrative fees, or commissions. The mutual funds and/or ETFs held in your advisory account(s) will charge management fees and other expenses. Our other firm fees are billed as follows: Fees for financial planning services are negotiate with you. Fees may vary based on the extent and complexity of your individual or family circumstances and the amount of your assets under our management. Our fee will be agreed in advance of services being performed. The fee will be determined based on factors including the complexity of your financial situation, agreed upon deliverables. You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

QUESTIONS TO ASK YOUR FINANCIAL PROFESSIONAL:

- Help me understand how these fees and costs might affect my investments.
- If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

**WHAT ARE YOUR LEGAL OBLIGATIONS TO ME WHEN ACTING AS MY INVESTMENT ADVISER?
HOW ELSE DOES YOUR FIRM MAKE MONEY AND WHAT CONFLICTS OF INTEREST DO YOU HAVE?**

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what

this means. Asset-based fees present a conflict because our Firm is incentivized by encouraging you to invest additional funds in your advisory accounts. Asset-based fee compensation also poses a conflict when: a) Advising you to rollover a 401(k) balance, when equivalent and less costly options are available if funds are left with the employer's fund manager. b) Advising you not to pay off a mortgage (thus diminishing assets), even when the mortgage carries a high interest rate. c) Advising against making a large charitable contribution to get a tax deduction (but decrease assets under management). d) Advising you to take a margin position in your managed account and charging fees on the margin balance. Some of our firm's financial professionals are registered representatives of an unaffiliated broker-dealer, and they may offer you brokerage services through the unaffiliated broker-dealer or advisory services through our firm. Brokerage and advisory services are different, and the fees our firm and the broker-dealer charge for those services are different. Registered representatives charge a transaction-based commission each time they buy or sell a security in a brokerage account. As a result, they have an incentive to trade as much as possible in order to increase their compensation. Our Firm utilizes solicitors and pays compensation to independent third parties for the referral of clients to our Firm. Our Firm is required to disclose commonly owned entities that would provide different services to you and generate additional compensation to our Firm. Please note that you always have a right to choose services and products from our affiliated entities or any other firm that provides similar services and products. Our firm allows our Financial Professionals to invest in the same securities as you; therefore, our Financial Professionals may have an incentive to favor their personal accounts over your advisory account. Lastly, some of the products, services and other benefits provided by your custodians are used in servicing all of our Firm's advisory accounts and therefore may not directly benefit your advisory account. If you have questions about whether any of these situations could apply to your investments, ask your Financial Professional.

QUESTIONS TO ASK YOUR FINANCIAL PROFESSIONAL:

- How might your conflicts of interest affect me, and how will you address them?

HOW DO YOUR FINANCIAL PROFESSIONALS MAKE MONEY?

Our financial professionals are compensated based on the revenue our firm earns from our investment advisory fees. This compensation is based on the amount of assets they service, the amount of time spent, and the complexity required to meet the client's needs or revenue based on the recommendations provided by our Financial Professionals. When our Financial Professionals act as a registered representative of a broker-dealer, our Financial Professionals receive commissions in connection with the transactions made in your account. To mitigate this conflict, our Firm will reduce a portion of our fees by the amount of the brokerage commissions earned by our Financial Professionals. Some of our Financial Professionals are insurance licensed and receive commissions, trails, or other compensation from the respective insurance companies as a result of effecting insurance transactions. However, you have the right to decide whether to act on the recommendation. We recognize our duty to place your interests first and have established policies in this regard to avoid any conflicts of interest. While some of our Firm's Financial Professionals are engaged in outside business activities, we are required to disclose material outside business activities and any conflict it may pose to you. Our Firm supervises the business activities of our Financial Professionals through our compliance program. All Financial Professionals are required to follow a Code of Conduct to mitigate any conflicts to you.

Madison Avenue Securities, LLC

Form CRS Customer Relationship Summary (March 11, 2021)

I. Introduction

Madison Avenue Securities, LLC ("MAS") is registered with the Securities and Exchange Commission as a Broker-Dealer and Registered Investment Adviser and is a member of the Financial Industry Regulatory Authority (FINRA) and the Securities Investor Protection Corporation (SIPC). Brokerage and investment advisory services and fees differ and it is important for you to understand these differences. This Form CRS describes these differences and sets forth the nature of our relationship. Free and simple tools are available to research firms and financial professionals at Investor.gov/CRS, which also provides educational materials about broker-dealers, investment advisers, and investing.

II. What investment services and advice can you provide me?

We offer investment advisory services, including portfolio management and financial planning. We also offer brokerage services to retail investors, including buying and selling securities. You may choose to utilize our investment advisory services, our brokerage services, or a combination of the two. We do not offer any proprietary products and we do not have a limited product shelf.

Our brokerage services have the following attributes.

- A variety of investment types may be recommended to you, including stocks, bonds, mutual funds, exchange traded funds ("ETFs"), options, structured products, real estate securities, and other investments.
- We do not make investment decisions for you. We will make recommendations and you choose which investments, if any, to purchase or sell.
- We do not provide investment monitoring for brokerage accounts.
- We do not set an account minimum. However, investment companies with whom you have the option to work with may set their own minimums.

Our investment advisory services have the following attributes.

- A variety of investment types and services may be recommended to you, including stocks, bonds, mutual funds, exchange traded funds ("ETFs"), options, structured products, real estate securities, and other investments, as well as money management services whereby third-parties might manage a wide range of such investments for you.
- You may choose if you want us or designated third parties to make investment decisions for you.
- If you choose us, and not a third party, to manage an account for you, you may choose whether or not you wish to approve which investments to purchase or sell before we execute the transaction or if you would like us to make those decisions for you.
- You may hire us to prepare a financial plan for you.
- We have the ability to provide investment monitoring, depending on the services and account type you select.
- There are typically minimum account size requirements to open an account. These can range from \$5,000 to \$100,000, depending on the type of account.

For additional information, please see our investor fee schedule at <http://www.mas-bd.com/investor-fee-schedule> and/or our ADV Part 2A Brochure at <http://www.mas-bd.com/>

Conversation Starters: We encourage you to ask your financial professional the following questions.

Given my financial situation, should I choose an investment advisory service? Should I choose a brokerage service? Should I choose both types of services? Why or why not? How will you choose investments to recommend to me? What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications mean?

III. What fees will I pay?

There are several ways you may choose to conduct business with us and the fees will vary, depending on the type of account you choose. The five broad ways you may choose to do business with us and their corresponding fees are as follows (you may choose to participate in more than one business line).

1. Fee-Based Advisory Business with a MAS Investment Advisor Representative

You may choose to open an account where instead of paying a commission for transactions, you pay a fee based on a percentage of your account value. This type of account, known as a "fee-based account" includes a fee paid to MAS for services provided. The fees are typically billed quarterly and may range from 0.5% to 2.25% per year depending on a number of factors, including account size. In our fee-based accounts you will pay either the asset-based fee only, or the asset-based fee, plus transaction charges for activity in the account. Also, certain investments (mutual funds, for example) have underlying expenses, or expense ratios. Investments in these accounts will be held at the custodian we select. For more details about these types of accounts please refer to our ADV Brochure, Part 2A.

In addition to the fees described above, certain investments held within these accounts often have their own underlying fees and expenses, sometimes referred to as expense ratios. This is common with mutual funds and ETFs. The underlying fees can vary widely from investment to investment. In some investments the expense may be 0.5% or less per year while other investments may have expenses that are 2% or more per year. We encourage you to closely review and consider these fees when making your investment decisions.

Fee-based advisory business includes an ongoing obligation on our part to monitor your investments and to advise you about their performance, including advice as to if and when your advisory accounts are no longer in your best interest.

Not all of our Representatives are able to offer this type of account.

2. Fee-Based Advisory Business with a 3rd Party Manager

In fee-based advisory accounts with a 3rd party manager, you will open an account (or accounts) directly with a company which MAS has a contract (or selling agreement) for them to provide investment services to you. Your investment will almost always be held with a custodian. With certain 3rd party managers, you are able to choose the custodian where you would like your investments held. With other 3rd party managers, you are limited to the custodian the 3rd party manager chooses. In these accounts, you will pay a fee to the 3rd party manager (and a portion of that fee will be shared with MAS) based on a percentage of the account value. The percentage you will pay will generally range from 1% to 2.5%. The fee may be higher or lower than this and will vary depending on a number of factors including account size and the 3rd party manager chosen. You may pay additional fees with these accounts as well, including annual account fees, custodian fees, transaction fees, or account opening fees. Each 3rd party manager is required to produce their own ADV Brochure Part 2A and all of their services, fees, and expenses will be described in the respective Brochure. We encourage you to review these documents before you open an account.

In addition to the fees described above, certain investments held within these accounts often have their own underlying fees and expenses, sometimes referred to as expense ratios. This is common with mutual funds and ETFs. The underlying fees can vary widely from investment to investment. In some investments the expense may be 0.5% or less per year while other investments may have expenses that are 2% or more per year. We encourage you to closely review and consider these fees when making your investment decisions.

Fee-based advisory business includes an ongoing obligation on our part to monitor your investments and to advise you about their performance, including advice as to if and when your advisory accounts are no longer in your best interest.

Not all of our Representatives are able to offer this type of account.

3. Brokerage Business

With brokerage business, you open an account or accounts with us through our clearing firm, Pershing LLC. In a brokerage account, you can buy and sell a wide variety of securities, like stocks, mutual funds, or ETFs, to name a few. In a brokerage account, you typically will pay a commission to us anytime you buy or sell an investment. Because we are paid a commission anytime you purchase or sell an investment, we have an interest in your trading more often. In addition to the trading commissions, certain account types are subject to annual custodial fees. Also, certain investments (mutual funds, for example) have underlying expenses, or expense ratios. We encourage you to review the MAS fee schedule for a listing of fees that may be applicable to brokerage accounts.

4. Direct Business with an investment issuer (also known as "Direct Business")

When you open a direct business account, you will be purchasing securities directly from the issuer. Common forms of direct business are mutual fund purchases, variable annuity purchases, or purchases of non-traded investments (such as non-traded real estate investment trusts or "REITs"). When you make these direct business purchases, it is brokerage business and we will receive a commission. As with all brokerage business, we do not provide investment monitoring services for these accounts. The commission rates typically range from 1% to 6% on mutual funds and variable annuities and from 5% to 7% on non-traded investments. Regardless of the investment you purchase, the commission or purchase charges will be detailed in the investment's prospectus or private placement memorandum ("PPM"). With certain investments, you will pay a commission to the investment issuer, (who will share all or a portion of that commission with us) reducing the amount of your investment that "goes to work" for you. For example, if there is a 5% front-end load on a mutual fund purchase, and you invest \$100, \$95 will go towards the investment and the remaining \$5 will pay the front-end load, or commission. This is common in mutual fund A-shares and non-traded investments. In other investment products, your entire purchase amount will be invested. This is common in variable annuities. In this scenario, the issuer of the securities will pay us a commission, but the commission is not coming directly out of your purchase amount. This does not mean that these investments do not have fees – they do. However, the fees are paid over time, and are typically reflected in the performance of the investment. Generally, with direct business, the greater the investment you make, the greater the commission we will receive. Therefore, our interest may conflict with yours when you place business in these sorts of products because the more you invest, the more we are compensated. (Note that this does not typically mean that the commission rate, or percentage is higher, if you invest larger amounts. In some instances, the commission rate we receive is actually less if you invest larger amounts.)

In addition to the commissions described above, investments purchased by direct business almost always have underlying fees and expenses, sometimes referred to as expense ratios. The underlying fees can vary widely from investment to investment. In some investments the expense may be 0.5% or less per year while other investments may have expenses that are 2%, or even 3% or more per year. We encourage you to closely review the investment's prospectus or PPM to review these expenses.

5. Financial Planning Business

Instead of opening an investment account (or, often in addition to opening an account) you may also hire us to prepare a financial plan for you. The financial plan may be in the form of one or a combination of 1) an analysis of your investments, or 2) a proposal for future investments, or 3) a retirement income plan, or 4) many other types of plans. When we prepare one of these plans for you, we may charge you an hourly rate or a flat fee for the plan. We may also charge you an annual planning fee if your financial plan will require periodic updating. If you decide to purchase a financial plan, you will enter into a separate written agreement with us describing the services to be performed and the associated costs. For more details about financial planning fees please refer to our ADV Brochure, Part 2A.

Not all of our Representatives are able to offer this type of service.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

For additional information, please see our investor fee schedule at <http://www.mas-bd.com/investor-fee-schedule>. You may also refer to FINRA's Fund Analyzer website at https://tools.finra.org/fund_analyzer/ to learn about the expenses of mutual funds and exchange traded funds.

Conversation Starters: We encourage you to ask your financial professional the following questions.

Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

What are your legal obligations to me when providing recommendations as my broker-dealer or when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we provide you with a recommendation as your broker-dealer or act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we

make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the recommendations and investment advice we provide you. Here are some examples to help you understand what this means.

Some third party companies that we work with provide us with additional benefits in exchange for recommending their products or services. These additional benefits include revenue sharing, technology, expense sharing, and recruiting resources, to name a few. Some third party companies that we work with provide none of these additional benefits.

Conversation Starters: We encourage you to ask your financial professional the following questions.

How might your conflicts of interest affect me, and how will you address them?

For additional information, please see our ADV Part 2A Brochure at <http://www.mas-bd.com/>.

How do your financial professionals make money?

Our financial professionals are compensated by MAS through 1) commissions for selling investments, 2) advisory fees for managing assets, 3) financial planning fees for the preparation of financial plans, or 4) a combination of the three.

Our financial professionals have a conflict when selling investments for a commission because they generally earn greater commissions the more you invest. However, our financial professionals do not receive a higher commission rate or percentage if you invest larger amounts. Our financial professionals have a conflict of interest when managing assets for a fee because the fee they earn is generally larger the larger the amount of assets they manage. An additional conflict is created because certain investments pay larger commissions than others. For example, investments that require you to hold them for a longer period of time before you can access the funds without penalty typically pay a greater commission than investments that are meant to be held for shorter periods of time. Additionally, the portion of the commission or advisory fee that our financial professionals receive from Madison is typically greater if they produce a larger volume of business with MAS.

Our financial professionals are also often compensated for sales activities that take place outside of their relationship with MAS. The most common example of this is the sale of life insurance or annuities where our financial professionals are compensated directly by insurance companies as insurance agents. Sometimes, our financial professionals may also earn "non-cash" compensation for sales of these insurance products, including vacations or other reward trips.

IV. Do you or your financial professionals have legal or disciplinary history?

Yes. We and some of our financial professionals have this history. To learn if your specific financial professional(s) have legal or disciplinary history, or to review MAS's legal or disciplinary history, visit Investor.gov/CRS for a free and simple search tool.

Conversation Starter. We encourage you to ask your financial professional the following questions.

As a financial professional, do you have any disciplinary history? For what type of conduct?

V. Additional Information
